Senior Software Developer | 6+ Years of Experience

Leveraging an **AI-integrated workflow** to deliver scalable solutions with **10x efficiency**. I am a dedicated **problem-solver** who excels at deconstructing complex technical challenges and translating them into elegant, high-impact code. By fusing deep architectural logic with cutting-edge AI tools, I push the limits of modern engineering to build software that lasts.

EXPERIENCE

WallMantra | New Delhi, Delhi

Senior Software Engineer

Feb 2024 - Present

- Orchestrated the end-to-end development of the complete e-commerce ecosystem—including the Website, Mobile App, Backend, and a custom CMS—leading a team of 5 developers.
- Architected a scalable full-stack infrastructure using **NestJS** and **NextJS**, ensuring high availability and seamless performance for **150K+ monthly active users**.
- Engineered a custom **Content Management System (CMS)** to streamline internal operations, enabling efficient inventory and content updates for the business team.
- Optimized **Technical SEO** and Core Web Vitals, directly contributing to organic traffic growth and improved search rankings.
- Managed **CI/CD pipelines and deployments**, ensuring zero-downtime releases and robust API performance across all platforms.

AeoLogic Technologies | Noida, Uttar Pradesh

Software Engineer

Oct 2021 - Jan 2024

- Developed full-stack solutions using **Flutter, ReactJS, and Node.js**, delivering robust mobile and web apps for client production environments.
- Optimized backend performance by designing efficient APIs and database schemas, resulting in faster load times for end-users.
- Provided technical mentorship, guiding junior engineers through complex debugging sessions and code optimization strategies.

Calibre Websol Pvt. Ltd. | New Delhi, Delhi

Junior Flutter Developer

Jan 2021 - Oct 2021

Euracle | Mumbai, Maharashtra

Flutter Developer Intern

Jul 2020 - Dec 2020

EXPERIENCE

- Frameworks** : NestJS, NextJS, ExpressJS, ReactJS, Native Android, Flutter, Wordpress, Payload CMS
- Database** : Postgres, MySQL, MongoDB, Cloud Firestore, Redis, ElasticSearch, Meilisearch
- Languages** : Typescript, Javascript, Dart, Java, PHP
- Tools** : Docker, Git, AWS

EDUCATION

Maharaja Surajmal Institute | New Delhi, Delhi

BCA | 07/2021

Grade : 10

The Adarsh School | New Delhi, India

Senior Secondary (XII), Science | 03/2018

Grade : 9.5

PROJECTS

WallMantra E-Commerce Ecosystem

NestJS | NextJS | React Native | Payload CMS | Postgres | MongoDB | Meliesearch

- **Architected a high-scale platform** supporting **150K+ monthly active users**, maintaining **99.99% uptime** during peak traffic events via Redis caching and optimized database indexing.
- **Engineered a custom Headless CMS**, reducing the marketing team's content deployment time by **90%** (from days to minutes) and enabling independent campaign management.
- **Boosted site performance**, achieving a **40% reduction in page load times** and passing Core Web Vitals assessments, which directly contributed to a **20% increase in organic traffic**.
- **Directed the UI/UX and mobile strategy**

Novio Fintech App

Flutter | Native Platform Channels | Android | iOS

- **Engineered secure banking integrations**, implementing complex **SIM binding validation** and device fingerprinting to prevent fraud and ensure 100% compliance with financial security standards.
- **Architected an "offline-first" mobile experience** with local caching, allowing users to view transaction history instantly while syncing ledger updates in the background.
- **Reduced production crash rates by 40%** by integrating robust error tracking (Sentry) and optimizing UI rendering, directly contributing to a **rating increase from 3.8 to 4.5 stars**.
